## **Environmental Report Card II**

For Park & Recreation Agencies Revised Draft December 7, 2011

INSTRUCTIONS: This is a self-evaluative tool. Please look over each category and determine who within the agency would best be able to answer the questions related to that category. Some questions are repeated in different sections. All questions require a simple "YES" or "NO" response. All "YES" responses receive 1 point, unless indicated at the end of the question. A "NO" response receives no points on that question. A "N/A" response receives no points on that question and does not affect your total points because the question does not pertain to your agency or its practices (i.e. Special Recreation Associations filling out the evaluative report card).

	GENERAL	YES	NO	N/A	POINTS
1.	Does your agency have an environmental policy/plan or guidelines that help it become more environmentally responsible? (2 points)	Х			2
